*“That, for the purposes of sections 256B and 256C of the Corporations Act 2001 (Cth) and for all other purposes, approval is given for the Share capital of Neon to be reduced by approximately \$6.601 Million, such reduction of capital to be effected by Neon paying to each registered holder of Shares as at 24 June 2019 (**Record Date**), the amount of 18 cents for each Share held by that holder on the Record Date, and otherwise on the terms and conditions set out in the Explanatory Statement.”*

DATED: 04 JUNE 2019

BY ORDER OF THE BOARD

**MS AMANDA BURGESS
COMPANY SECRETARY**

EXPLANATORY STATEMENT

This Explanatory Statement has been prepared for the information of the Shareholders in connection with the business to be conducted at the Extraordinary General Meeting to be held at 11.00am (WST) on 26 June 2019 at 22/589 Stirling Highway, Cottesloe, WA.

This Explanatory Statement has been prepared to provide information which the Directors believe to be material to Shareholders in deciding whether or not to pass the Resolution in the Notice of Meeting.

1. RESOLUTION 1 – RETURN OF CAPITAL TO SHAREHOLDERS

1.1 PROPOSED RETURN OF CAPITAL

(a) **Return of capital**

Neon proposes to make a cash payment to Shareholders of 18 cents per Share (representing \$6.601 million in total) as a return of capital.

The record date for determining entitlements to receive the return of capital is 5.00pm (WST) on 24 June 2019 (Record Date). The terms of the return of capital are the same for each Shareholder.

For the purposes of the Corporations Act, the proposed return of capital is an "equal" reduction of capital which requires the approval of Shareholders by ordinary resolution in general meeting. Accordingly, for the proposed return of capital to proceed, a majority of votes must be cast in favour of Resolution 1.

(b) **Payment details**

If the return of capital is approved by Shareholders, cheques will be despatched (or, in the case of Shareholders who have elected to have payments made directly into a nominated bank, building society or credit union account - see below), to entitled Shareholders, being registered holders of Shares at the Record Date referred to above.

No fractional entitlements will arise from the capital return. All Shares issued by the Company are fully paid.

Shareholders who wish to, can arrange to have the return of capital paid directly into a bank, building society or credit union account in Australia by contacting Neon's Share Registry on 1300 992 916 (within Australia) or +61 3 9628 2200 (outside Australia) before the record date.

(c) **Tax Treatment**

Refer to section 1.9 below for information about the tax implications of the return of capital for Shareholders.

1.2 Reasons for the return of capital

The decision to propose a capital return follows a strategic review by the Board which has determined that whilst the Company has been successful in the past, the capital base of the company is too small to achieve the appropriate exposure and diversification required whilst being able to generate meaningful ongoing returns. Furthermore, Shareholder requests for liquidity and the overheads associated with operating a company of this nature have contributed to the Board's capital return proposal.

As a consequence of this review, the Board is proposing to return 18 cents per Share to Shareholders in the form of a capital return.

Subject to and following the proposed capital return, the Board will manage the remaining investments with the intention of maximising the realisation of these assets in an orderly manner. The Board believes greater returns will be possible by allowing the remaining investments to achieve their targeted milestones, the timing of which is uncertain.

It is the current intention of the Board to make further returns of capital to Shareholders as the remaining investments are sold and at a time that the distribution can be made in a meaningful way mindful of the costs associated with capital returns.

Following Shareholder approval for the capital return, the Board intends to rationalise all Company overheads commensurate with the reduction in capital in order to ensure future returns are not materially impacted by ongoing operating costs

1.3 Requirements for the return of capital

(a) Equal reduction

The proposed return of capital constitutes an equal reduction of Neon's Share capital for the purposes of the Corporations Act. This is because it relates only to ordinary Shares, it applies equally to each holder of ordinary Shares in proportion to the number of Shares they hold, and the terms of the reduction are the same for each holder of ordinary Shares.

(b) Statutory requirements

Under Section 256B(1) of the Corporations Act, a company can reduce its share capital if the reduction satisfies three key requirements. These requirements are as follows:

- (i) The reduction must be fair and reasonable to the Company's shareholders as a whole;
- (ii) The reduction must not materially prejudice the Company's ability to pay its creditors; and
- (iii) The reduction must be approved by shareholders under section 256C of the Corporations Act.

The Directors are of the opinion that the return of capital is fair and reasonable to all Shareholders as it will apply to all shareholders on the Record Date equally, in proportion to the number of Shares which they hold at the Record Date and otherwise for the reasons set out in Section 1.9.

The Directors are also of the opinion that the return of capital will not materially prejudice the Company's ability to pay its creditors after having reviewed and considered the financial position of the Company, including the Company's assets, liabilities, cashflow and capital requirements. In particular, the Company will have sufficient cash resources to pay its creditors after the return of capital.

1.4 Effect on capital structure

The Company has 36,672,049 Shares on issue as at the date of this Notice. No Shares will be cancelled in connection with the return of capital. Accordingly, the return of capital will not affect the number of Shares held by each Shareholder, nor will it affect the control of the Company.

After the return of capital, Neon's Share capital will be reduced by 18 cents per Share, which as at the date of this Notice amounts to approximately \$6.6 million (subject to rounding).

1.5 Impact on growth strategies

In view of the financial position of Neon, the operating results, and Neon's capacity to raise additional finance if required, the Board considers that the return of capital will not materially impact Neon's ability to fund its reduced operations.

The Board believes that the proposed capital return will leave the Company sufficiently capitalised to manage its remaining investments with the intention of maximising realisation of these assets in an orderly manner.

1.6 Impact on financial position of the Company

As a guide to assist Shareholders, the Company has prepared the pro forma balance sheet set out below to illustrate the effect of the return of capital on the Company's financial position.

1.7 Ability to pay creditors not materially prejudiced

Neon has undertaken significant work to assess the impact of the return of capital on Neon's ability to pay its creditors, including current and reasonably foreseeable future claimants.

Neon has considered its financial position under a range of possible business and operating environments in order to assess Neon's capacity to meet the claims of all of its creditors, including current and reasonably foreseeable future obligations, following the return of capital. The review concluded that, even in the reasonable worst case scenarios that were considered, Neon would have the capacity to meet the claims of its creditors, including future obligations, following the proposed return of capital.

As a consequence of the matters referred to above, Neon's Directors are satisfied that the return of capital will not materially prejudice Neon's ability to pay its creditors.

1.8 Effect of proposed capital reduction on Shareholders

The Directors consider that the capital reduction will be fair and reasonable to Shareholders because:

- (a) it is made equally to all Shareholders, pro-rata to their Company holding;
- (b) all Shareholders are being treated in the same manner, and the terms of the capital reduction are the same for each Shareholder;
- (c) the proportionate ownership interest of each Shareholder in the Company remains the same before and after the capital reduction;
- (d) the capital reduction does not deprive any Shareholder of any rights that they may hold; and
- (e) the capital reduction is subject to Shareholder approval pursuant to section 256C of the Act.

Advantages

The primary advantage in approving Resolution 1, is that the return of capital will enable the Company to repatriate capital to its Shareholders, in an orderly and cost-efficient manner.

Disadvantages

A disadvantage of the proposed return of capital is that following its implementation the Company will have a reduced capital base from which to operate.

The post return of capital net cash reserves of approximately \$485,000 will be sufficient to operate but not to engage in new investment opportunities. This is consistent with the strategy of the Board as described above.

There may also be a taxation consequence in respect of the distribution of the Consideration Shares to the Shareholders (see Section 1.9).

1.9 Tax implications for shareholders

The summary in this Section is general in nature. In addition, particular taxation implications will depend on the circumstances of each Shareholder. Accordingly, Shareholders are encouraged to seek their own professional advice in relation to their tax position. Neither Neon nor any of its officers, employees, or advisers assumes any liability or responsibility for advising Shareholders about the tax consequences for them from the proposed return of capital.

(a) Capital Return

Neon confirms its understanding that:

- (i) no part of the proposed capital return will be treated as a dividend for tax purposes;
- (ii) if the cost base of a Share acquired is less than the capital return amount (on a cent per share basis) then an immediate capital gain may arise for the difference;
- (iii) otherwise, the cost base for each Share will be reduced by the capital return amount (on a cents per Share basis) for the purpose of calculating any capital gain or loss on the ultimate disposal of that share.
- (iv) for those Neon Shareholders who are not tax residents of Australia, no Australian capital gain or loss should arise as a consequence of the capital return.

(b) Non Residents

Existing Shareholders who are not residents of Australia for tax purposes should seek specific advice in relation to the taxation consequences arising from the return of capital under the laws of their country of residence.

1.10 Directors' recommendations

Noting their interests in Section 1.11, Neon's Directors unanimously recommend that Shareholders vote in favour of the proposed reduction of capital the subject of Resolution 1.
